

## **1. DOCTORS ORDERS:**

All orders for parenteral solutions must include the following:

- the type of solution
- the rate of administration or the specific volume to be administered over an ordered period of time

All orders for parenteral medications must include the following:

- the name of the medication
- the route of administration
- the dose or dosage range and time interval or range

All orders for cytotoxic parenteral medications must be prescribed on a Parenteral Chemotherapy/Immunotherapy pre-printed order form (PPO # 45), if the cytotoxic agent is not already on an existing PPO.
